

A scatter plot showing the relationship between Feature 1 (X-axis) and Feature 2 (Y-axis). The X-axis ranges from 0.00 to 1.00, and the Y-axis ranges from 0.00 to 1.00. The plot displays two distinct clusters of data points: a blue cluster and a red cluster. The blue cluster is located in the upper-left region, with Feature 1 values ranging from approximately 0.10 to 0.65 and Feature 2 values ranging from approximately 0.40 to 0.95. The red cluster is located in the lower-right region, with Feature 1 values ranging from approximately 0.75 to 1.00 and Feature 2 values ranging from approximately 0.10 to 0.60. There is a small overlap between the two clusters around Feature 1 = 0.80 and Feature 2 = 0.45.
